

Lampholder GU6.5 for discharge lamps  
Powerball HCI-TF 20 Watt of OSRAM

Your Connection to Light

# Only one turn and the object is in the spotlight.

## It presents objects to their best advantage.

The new discharge lamp POWERBALL HCI-TF by OSRAM is characterised by high efficiency, compact design as well as by excellent optical light alignment. A new lamp made for attractive accents in the shop area as well as brilliant illumination of objects.

## United. Lampholder combinations.

"What is known in Europe is not unknown in America". This assumption obviously works both ways. With the POWERBALL HCI-TF (OSRAM) a new efficient compact lamp is enriching the shop-lighting range. The lamp system with its excellent light alignment provides brilliant and harmonious illumination of objects.

## To get the right focus.

For the illuminant the position of the focal point in the lamp is of crucial importance. Here lighting engineers can also rely on the expertise of BJB. The lamp is precisely focused through the fitting GU6.5.

## Simple (and) safe.

The following holds for the lamp: "There is no easier way to fit the lamp". Just a quick turn and the Twist-and-Lock system immediately provides the base of the lamp with support. Naturally the body of the fitting is made of ceramic material. This high quality material fulfils the highest safety standards.

OSRAM 

- Discharge lamp in mini-format
- Robust lamp base
- High light output
- Long lifetime

- Precise focusing of lamp
- Easy and secure insertion of lamp
- High thermal safety through ceramic body

part-no.  
**25.705.1001.00**

### Screw fixing

- Housing: ceramic / PPS
- With 2 ignition cables
- Wires: Cu, nickel plated, 1.0 mm<sup>2</sup>, with ferrule
- Insulation: PTFE (max. 250° C)
- Free cable length: 320 mm
- Screw fixing: we recommend screws M3
- Starting voltage to 5 kV
